WILLS, ESTATES, TRUSTS AND TAX

Whatever your personal circumstances, our expertise and experience will guide you to a solution that provides the best outcome for you and your family – in a way you will understand and that gives you peace of mind.

Examples of the work we do for our clients include first wills for new parents, advice for business owners, trusts for retirement planning, inheritance tax and care fee planning.

PROBATE

Estate administration can be complex but we will guide you through the process from start to finish, offering the level of support you need.

We will ensure the Will is adhered to correctly and liaise with HMRC to settle any tax matters.

COURT OF PROTECTION AND LASTING POWERS OF ATTORNEY

Lasting Powers of Attorney and Court of Protection applications can be daunting.

But we have a seasoned team to guide you through all aspects of this work, including the preparation and registration of Powers of Attorney, Deputyship applications and contested applications.

We can also assist you when things don't go to plan, with experience in the removal of Attorneys and Deputies and the recovery of misappropriated assets.

PERSONAL INJURY

Accidents happen and, in appropriate circumstances, you are entitled to claim compensation from a responsible third party.

We pride ourselves on providing you with continued guidance and support from the moment you contact us through to the conclusion of your case.

We offer advice and assistance on a vast range of personal injury claims, including road traffic accidents, accidents at work or injuries or illnesses arising from employment, accidents on either public or private property, accidents on holiday and Criminal Injuries Compensation claims, to name but a few.

Our experienced team can assist with everything from cuts and bruises through to more serious injuries, such as spinal or brain injuries, as well as accidents that result in fatalities.

We work alongside a range of local experts and, in particular, medical providers and rehabilitation experts, who we can call upon to help you get back on your feet as soon as possible.

Our aim is to get you back in the position you were in prior to your accident or illness and to ensure you are fully compensated for the losses you have suffered.

RESIDENTIAL PROPERTY

Buying and selling a property is often seen as one of life's most stressful experiences. Choose Prettys and we will ensure your transaction is managed in a way that makes it as easy and stress-free as possible.

We have an accreditation from the Law Society's Conveyancing Quality Scheme that is only granted to those who meet strict quality standards, show integrity and adhere to careful and efficient conveyancing.

The personal touch is important to us. So, whether the property is local or elsewhere in England or Wales, you will be guided each step of the way by a team dedicated to delivering a successful outcome.

FAMILY

At Prettys, the Family team provides a bespoke service suited to your needs and individual situation.

The team has a reputation for creative solutions, based on discussion, to achieve the end result.

If a case has a genuine need for court process, we are expert at pursuing an effective outcome.

We understand that family issues involve complex emotions, even in amicable circumstances, and that relationship breakdowns can be traumatic.

So, we are committed to resolving disputes in a sensitive way, preserving the dignity of all involved but delivering acceptable outcomes.

The service we provide covers every aspect of family law, from dispute resolution and child protection to prenuptial arrangements and financial settlements.

All of the solicitors in our team are members of Resolution, the national organisation for family lawyers, and are also trained mediators. As such, they are committed to resolving disputes in a non-confrontational way.

SPECIALIST SERVICES

Complementing our core services, we offer expertise across a number of specialist areas.

Talking Works

Experience shows that talking issues through, with proper support and guidance, makes finding flexible and creative solutions more likely.

Talking Works is an innovative service that uses a range of methods, including mediation, collaborative discussion, round table and 'kitchen table', to help resolve disputes more effectively.

Our Family team will be pleased to explain the process in more detail.

Family Businesses

We understand the personal and commercial challenges faced by family-owned businesses such as farming partnerships.

Our experienced lawyers advise regularly on matters such as succession planning, property relief, inheritance tax, business structuring and strategy, pension trusts and employment issues.

Every family-owned business is unique, so our first step is to understand not only your business but its values, culture and what your family members want to achieve from it.
